Mr. William O. Cregar  
Assistant Director, Intelligence Division  
Federal Bureau of Investigation  
Washington, D. C. 20535

Dear Mr. Cregar:

This note will confirm our appointment to meet on Friday, 30 June 1978, from 1400 to 1500 hours at the Community Headquarters Building, to review your element of the National Foreign Intelligence Program for FY 1980.

So that the DCI may be fully informed before making his decisions on the NFIP, I trust you will be prepared to discuss these specific areas concerning the Foreign Counterintelligence Program:

- o the effects of underspending in FY 1978 and FY 1979, the remedial actions taken, and the impact on the FY 80 program;
- o the planning and budgeting actions taken to improve secure communications;
- o the procurement and planned use of the dedicated computer for FCI activities and explain how it interfaces with support from the FBI computer complex;
- o the current status of efforts to improve productive and analytic capability highlighting the initiatives included in the FY 1980 program;
- o the benefits to be realized from development and deployment of equipment under the Dedicated Technical Program; and
- o place in perspective the amount of effort devoted to the production of information on foreign terrorism vis-a-vis the total program.

Please let me know in advance if there are other issues which you would like to raise.

Sincerely,

[Redacted Signature]

Deputy to the DCI for
